Historic Preservation Architect

CTA Inc. Bozeman, Montana has an opening for a Historic Preservation Architect. Join an innovative and inspired group of design professionals in a collaborative environment with a commitment to quality and client satisfaction. This position requires a professional architecture degree, 3-5 years’ experience working with an architectural firm, and a demonstrated interest in historic preservation, with a career goal of working in historic preservation. A Masters degree in Historic Preservation is preferred.

The successful candidate will be working with a nationally-recognized historic preservation expert on National Park Service projects, Building assessments, Historic Preservation Tax Credit projects, Historic Structure Reports, and restorations and renovations of various buildings throughout the Rocky Mountain West. The qualified candidate will work closely with the project team to establish and implement project concepts; have strong research and writing skills; serve as a resource for and lead in the development of reports, drawings, specifications, and cost estimates; be involved in construction administration; and be able to develop technical solutions in Autocad and Revit. A LEED accredited professional is a plus.

If the applicant has sufficient experience in Historic Preservation, consideration will be given to applicants who prefer to locate to a CTA-branch location other than Bozeman.

Competitive salary and benefits package includes production bonus, medical/dental/vision/life insurance, 401(k) savings plan, holiday and paid time off.
