

Architectural Consultant

THE POSITION

Help to preserve the history of Pennsylvania by working on the historic sites and museums administered by the Pennsylvania Historical and Museum Commission. Join a diverse team that is responsible for maintaining over 400 buildings, and put your passion for architecture and history to use serving the Commonwealth of Pennsylvania. This is professional level work in the planning, design, and oversight of construction projects for the Pennsylvania Historical and Museum Commission.

DESCRIPTION OF WORK

The Architectural Consultant provides architectural design, design review, technical consulting and related professional services for construction projects at historic sites and museums administered by the Pennsylvania Historical and Museum Commission. This position is responsible for planning and managing projects on some of Pennsylvania's most important historic sites and gets to insure the sites and museums that tell the history of Pennsylvania are in good condition for the visiting public. Work includes overseeing renovation and new construction projects for conformance and compliance with current building codes and the Secretary of the Interior Standards for the treatment of Historic Properties.
