

# Historic Building Architects, LLC

312 West State Street, Trenton, New Jersey 08618 tel 609 393 3999 fax 609 393 4333 [www.hba-llc.com](http://www.hba-llc.com)

The firm of Historic Building Architects, LLC (HBA) has one central mission: the high quality restoration and adaptive use of important historic buildings in the public realm. Over the past 25 years, HBA has earned a national reputation for completing significant restoration projects and garnered both National and State Preservation Awards. Key to the success of HBA is the state-of-the-art historic and scientific research and innovative yet practical design solutions that respect our environment, cultural heritage, and community. HBA's work is primarily focused in the Northeast from Maine to Florida. Over the past 25 years, we have built a team of employees and consultants who care about and enjoy preservation work. The members of HBA's technical staff all have degrees in architecture and historic preservation. HBA is committed to creating designs and making repairs that will last at least 100 years. This calls for carefully planned, forward-looking approaches that yield cultural, environmental, practical, and economic benefits. HBA's focus on material science and technology includes a Material Conservation Laboratory and a sUAS used for condition assessment work. HBA is on the cutting edge of communication, technology, and production in the field of historic preservation architecture. Our firm is growing and we are looking for like-minded young professionals who can be challenged and are eager to learn and be part of this exciting growing team. ## 2018 Full Time Preservation Architect/Project Manager

This is an exciting opportunity to work full time with a team of talented and highly experienced preservation architects. As a small firm, you will have opportunities to experience working on projects from Schematic Design through Construction Administration. You will be responsible for managing junior staff and working directly with the principal-in-charge and with clients. You need to have completed a professional degree in architecture. Your degree should demonstrate a focus on historic preservation or you should have a Masters Degree in Historic Preservation in addition to your professional architecture degree. Material Conservation skills are a plus. You should be licensed or less than a year away from getting licensed with skills in AutoCAD, Sketch-up, In-Design, Illustrator, and Photoshop. You should have 3-5 years experience in an architectural practice.

## How To Apply

Please submit your resume and work samples to demonstrate relevant job experience, self-motivation, excellent graphic skills and strong communication skills. Please email [info@hba-llc.com](mailto:info@hba-llc.com) and attach position title, your resume, two references, and work samples from your portfolio. We encourage you to visit our website at [www.hba-llc.com](http://www.hba-llc.com). Please do not call, we will get back to you!
