SPECIAL ISSUE ON PRESERVATION-ENGINEERING EDUCATION

Guest Editors’ Note 3
Douglas Porter and Ronald W. Anthony

Toward a Philosophy of Preservation Engineering 6
John Ochsendorf

Preservation Engineering: A View from the Design Office 7
Edmund P. Meade

A Call to Arms: Competency, Education, and Training of Structural Engineers 9
John A. Fidler

Education and Competencies Needed for Performance Evaluation of Building Systems 17
Richard I. Ortega

A History of Building Technology and Preservation Engineering 23
Donald Friedman

Preservation-Engineering Education for Masonry Construction and Structures 29
Paulo B. Lourenço

Preservation-Engineering Education: Considerations for Timber Structures 35
Ronald W. Anthony

Nondestructive Evaluation in a Preservation-Engineering Curriculum 41
Michael Schuller

Engineering Considerations for Repairing Historic Structures 47
David C. Fischetti

Lee Nelson Book Award: Historical Building Construction 53
Donald Friedman

Cathedral Stone® Products

In the Lab. In the Field. Innovation.

Substrate analysis and customization  Salt resistance testing in The CSP Laboratory

The Ultimate Collaboration of Science and Masonry

Products:
- Engineered Mortars and Grouts
- Environmentally Safe Cleaners and Strippers
- Potassium Silicate Coatings
- UV Stable Repellents

Made in The USA
