

Employment Opportunity: Architectural Conservator

Building Conservation Associates, Inc. (BCA), a private consulting firm specializing in architectural materials conservation and historic preservation, is seeking candidates for the position of Architectural Conservator in the New York office. Range of activities may include field investigations and materials testing, preparation of construction documents, construction monitoring, and report writing. Candidates should have a graduate-level degree in architectural conservation or equivalent experience. Preference will be given to candidates with two to four years of professional experience and to candidates with demonstrable AutoCAD skills.

Since 1985, BCA has provided custom technology and planning services to architects, private institutions, developers, building owners, museums, and government agencies. BCA is headquartered in New York, with regional offices in New England and Philadelphia. BCA's staff includes building and object conservators, architects, historic preservationists, scientists, historians, planners and artisans.

Building Conservation Associates, Inc. is an Equal Opportunity Employer. Interested individuals should e-mail resume, cover letter and writing sample to:
