

Position: Architectural Conservator/Restoration Architect

Location: Building Conservation Associates, Inc.
New England Office – Dedham, Massachusetts

Building Conservation Associates, Inc. (BCA) is a private consulting firm specializing in architectural materials conservation and historic preservation. BCA provides technical materials consulting and historic preservation planning services to architects, private institutions, developers, buildings owners, museums and government agencies. BCA is headquartered in New York City and has offices in New England (Dedham, Massachusetts) and Philadelphia. The position advertised is in the New England office.

The Architectural Conservator/Restoration Architect will be responsible for providing a full range of services related to the assessment and conservation of historic buildings. Services will include: historical research, field investigation, materials testing, report writing, preparation of construction documents – drawings and specifications, and project monitoring.

Candidates applying for this position should have a graduate level degree in architecture or architectural conservation, and a minimum of 3 -5 years of experience working in the field of building conservation. Demonstrated proficiency in AutoCAD is required.

Building Conservation Associates, Inc. is an Equal Opportunity Employer. Interested individuals should email a resume, cover letter, and writing sample to:
