

BVH ARCHITECTURE

Historic Preservation Architect

BVH Architecture seeks a highly skilled historical architect with 7-10 years of relevant experience to join our Lincoln or Omaha, Nebraska studios. Responsibilities will include technical writing, hands-on condition assessments, preparation of historic tax credit applications, and developing recommendations, rehabilitation and adaptive reuse designs to meet the Secretary of the Interior's Standards. Periodic travel throughout the midwest and mountain regions is required. This individual will participate in and contribute to the firm's broader architectural practice and collaborative culture.

BVH is more than a collection of architects. We are a team of creative thinkers that seek to learn from our world and elevate the practice of architecture. We view design through the critical lenses of integrity and responsibility, both to our craft and to our community. We are peers, not competitors—seeking to better our world through our work. We offer competitive salaries and benefits, an energetic workplace, ongoing training opportunities, and an environment that allows employee interests and strengths to flourish.

Interested parties should send their resumes to careers@bvh.com
