CSOS Inc. is a full service conservation company that has been dedicated to the preservation and restoration of art and architecture for over 30 years. CSOS uses the most cutting edge technology available to offer the best possible conservation treatments for small objects as well as large monuments and entire building facades. CSOS is a world leader in laser cleaning research and treatments, and works with G.C. Laser Systems to provide unique solutions.

We are looking for motivated professionals who are excited to work on a variety of unique and significant projects. This year's upcoming projects are in places such as Illinois, Maryland, New York, Tennessee, Missouri, and overseas!

Interested applicants should contact:
Jamie Morris RA, AIC PA
JMorris@CSOSinc.com
