- Bachelor's and/or master's degree in architecture or architectural studies from an accredited college or university.
- Master's degree, certificate, and/or postgraduate training in historic preservation/heritage conservation.
- Enrollment in NCARB and active pursuit of architectural license.
- Meet the National Park Service's Professional Qualification Standards (Code of Federal Regulations, 36 CFR Part 61) for Historic Architecture.
- Fluency in the Microsoft Office program suite
- Fluency in AutoCAD and REVIT, including minimum 2+ years' experience producing construction documents in Revit.

### Duties

- Participate in and coordinate field investigations, conditions assessments, and surveys of historic buildings.
- Prepare materials testing & trial repair programs.
- Translate fieldwork into maintenance and treatment plans for historic materials.
- Work with project teams to prepare technical specifications and architectural details for preservation, rehabilitation, restoration, and reconstruction of historic buildings and their features.
- Perform construction administration services. Collaborate with contractors, specialty subcontractors, craftspeople, and architectural conservators.
- Assist Project Managers in developing work plans, budgets, & schedules for the above.

### Characteristics

- Interest in historic preservation and adaptive reuse, with an appreciation of historic buildings and places.
- Communicative, self-motivated, enthusiastic, dependable and interested in professional growth.
- "Self-starter" who can find solutions to project challenges.
- Strong organizational and time management skills, with the ability to work on multiple projects at a time.

Salary is commensurate with experience.
