

Preservation Architect

Berggren Architects, a recognized leader in historic preservation, is seeking like-minded applicants licensed to practice architecture. Our passion is fulfilled working on such landmarks structures as the Wyoming State Capitol, the historic Boswell Observatory on the campus of Doane University and many of Nebraska's iconic county courthouses.

Your responsibilities & requirements

Responsibilities of this full-time position include all phases of architectural services, from initial client contact through completion of construction. Assessment of existing building conditions and the ability to write concise reports of the findings is essential. Mentoring our student interns and architectural interns is expected.

We encourage you to explore the possibilities of working with us in this unique and challenging field.
