

Project Manager

Columbia University is seeking an experienced Project Manager to join its Capital Project Management Team. The Planning & Capital Project Management (CPM) group has the primary responsibility for overseeing the planning, development, design, and construction process for capital projects primarily at the Morningside Campus, the Baker Field Athletic Complex, and the Lamont-Doherty Earth Observatory Campus. The Project Manager will act as the primary lead on all phases of assigned capital projects from programming, development, and design through construction and closeout. Individual projects range in size from \$100,000 to \$50MM+ and vary in program type, complexity, and size. Projects include renovations and new construction, classrooms, public spaces, laboratories, and infrastructure, among many other program types.

Bachelor's degree in a relevant field is required. Advanced degree and/or supplemental certifications such as LEED AP or Construction Management Certifications is desirable. Minimum of five (5) years of related experience in the management of multiple complex construction projects, ideally including multiple years managing capital projects in New York City (vacant and occupied) buildings, required.

For a detailed job description and to apply for this position, please visit our online job application system at <http://opportunities.columbia.edu/cw/en-us/job/524110?!ApplicationSubSourceID=>. The position requisition number is 524110.

Salary: \$120K

Columbia University is an equal opportunity employer / disability / veteran and is committed to the hiring of qualified local residents.
