

College of Fellows 2021 Call for Nominations

Nominations are sought for the 2021 Class of the Association for Preservation Technology College of Fellows. The College of Fellows was established in 1992 with the induction of the Founders of the Association as the inaugural class. There are currently 79 members in the College of Fellows. The Board of Directors and the College are planning to induct the next Class of Fellows during the APT virtual conference in October of 2021.

The purpose of the College is to advise the board on issues regarding the advancement of philosophy and practice of preservation technology, and to honor those members who have provided valuable services to the Association. Election to the APT College of Fellows is the highest honor bestowed by APT upon members of the organization and recognizes those who have made significant contributions to the field of preservation technology and to APT.

A jury comprised of three College of Fellow members, one member of the APT Board and one APT member-at-large, appointed by the President and Board, will evaluate all nominations and elect new Fellows. It is expected that the Fellows-elect will attend the virtual conference, where they will be inducted into the College of Fellows.
